

Bibliography management: `biblatex` package

Overleaf

May 2021

Using `biblatex` you can display a bibliography divided into sections, depending on citation type. Let's cite! Einstein's journal paper [Ein05] and Dirac's book [Dir81] are physics-related items. Next, *The L^AT_EX Companion* book [latexcompanion], Donald Knuth's website [Knu], *The Comprehensive Tex Archive Network* (CTAN) [ctan] are L^AT_EX-related items; but the others, Donald Knuth's items, [knuth-acp; Knu73] are dedicated to programming.
